

European Metallurgical Conference **EMC 2009**

June 28 - July 1, 2009, Innsbruck, Austria

5th European Metallurgical Conference

The conference is held upon the invitation of the GDMB Society for Mining, Metallurgy, Resource and Environmental Technology and particularly addresses metal producers, plant manufacturers, equipment manufacturers and service providers as well as members of universities and consultants.

Main topics will be:

- Copper and Nickel
- Zinc and Lead, Tin
- Light Metals
- Precious and Rare Metals
- Recycling and Environment
- Economical Aspects
- Process Control, Analytics and Modelling
- Raw Materials Aspects
- Education and Training

International Metallurgical Exhibition

A collateral exhibition will be part of the EMC 2009 conference. Metallurgical companies, service providers and suppliers will present themselves to an international audience of experts to show the latest technology and products.

Conference exhibitors are given the opportunity to draw the attention of competent delegates to interest them in their products. Conference participants have the chance to get competent visitors interested in their own products.
